

We cannot solve global challenges unless women participate fully in efforts to find solutions. Female participation in the private sector is a crucial economic driver for societies worldwide. Economic security benefits every facet of a woman's life, with positive effects on the health, education and vitality of families. Learn about women who are changing their societies for the better. This book is based on the twelve critical areas of concern identified in the Beijing Declaration and Platform for Action at the Fourth World Conference on Women in Beijing in 1995. This extended version of Global Women's Issues: Women in the World Today includes, for each chapter, a summary, key words, multiple choice questions, discussion questions, essay questions, and a list of additional resources. Copies of the original book are also available in Arabic, Portuguese, and Spanish.
