About this Resource

This is a print edition of The Rebus Guide to Publishing Open Textbooks (So Far). The Guide is a living repository of collective knowledge, written to equip all those who want to publish open textbooks with the resources they need. Representing two years of collaboration, innumerable conversations and exchanges, and a wide range of collective knowledge and experience, the Guide is a book-in-progress and will evolve and grow over time. Join the project discussion and help shape its development by visiting https://forum.rebus.community/.

The Rebus Community is made up of faculty, students, and staff from schools, colleges, and universities around the world, along with regular people who believe that educational materials for every subject should be a free and open public resource.
